

WHY IS MONEY SO IMPORTANT?

Money isn't everything. It's not as important as family and friends and clean air to breathe; but money IS important!

WHY? THINK ABOUT IT

Money is the tool that helps us obtain what we need to survive.

- \$ Food
- \$ Clothing
- \$ Shelter

Having enough money allows us to live comfortably, have adventures, look after our health and give back to the community. Money can give us the time for education, and the time to develop our talents and nurture our relationships.

Money supports us in creating a home and a lifestyle and achieving our goals.

Money is important because it gives us the power to make a difference in our life, and in the lives of others.

Money won't keep you warm at night – but it will buy you a good blanket to wrap yourself in!

FINANCIAL SECURITY IS IMPORTANT

Having financial security will give you the freedom to choose your own course in life. Having no money or being in debt can take away that choice.

Having no money or being in debt is a constraint. It can leave you working in a job you hate, and worrying about having enough to pay for food, rent, emergencies – and a better future. Having money takes away that worry.

Money isn't everything, but it is important, because having enough of it will help you to live your best possible life.
